

STRIDER~RESOURCE

New & Innovative Products & Processes for the Lifting, Rigging & Load Securement Industry™

High Capacity Production Roundsling Machinery

- The RSM PRO & HC quickly and efficiently produce a full range of roundslings.
- The TCM mechanically prepares seamless covers, saving time and labour.
- Multiple roundslings can be run at the same time at very high speeds.
- The tailstock glides easily into position and pneumatically locks in place.
- Remote operation allows the operator to fabricate from a safe distance.
- Automatic tension control and yarn equalization for optimum performance.
- Consistently repeatable accurate sling lengths.

Modern Forward Compatible™ Test Machinery **NEW**

- Exceptionally accurate and technologically advanced test machinery.
- **Made in the USA** with the highest quality components and workmanship.
- Engineered to be easily adaptable for future equipment and software upgrades.
- Optimum force controllability. Advanced data acquisition.
- Prompt professional worldwide technical support and calibration services.
- Quality wire rope grips and wireless load cells.

Industry First!

Maneuverable LED Swager Work Light

Universal Die Pocket accommodates both One Press® and multi press dies.

Dies bolt quickly and securely into place.

Die pocket rotates 360° for easy access and ergonomic positioning.

Covered electronic foot pedal allows the operator full manual control of the swaging action.

Spotlight on Innovation

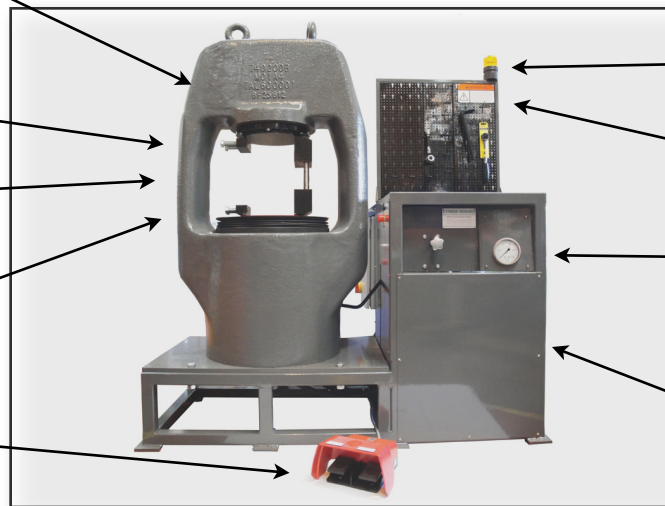

Multi-directional warning light indicates to others that the swager is on.

Safe use guides.

Conveniently located pressure valve and oversized gauge for improved visibility and accuracy.

Pump is fully enclosed and insulated for exceptionally quiet operation.

Universal™ Swagers ✓ In Stock for Immediate Delivery

The One Press® Swaging System is the fastest and most reliable method of swaging Flemish eye wire rope slings and assemblies. One Press® single stage dies swage carbon steel One Press® sleeves from 1/4" up to 1-1/2" completely in **just one press**, saving considerable time and labour.
